Sprint Layout:
- Rachel
  - Last week: researched nodeJS
  - This week: research nodeJS
  - Next week: Update html files to help with integration
  - Roadblocks: Current understanding of nodeJS
- Drake
  - Last Week: Started to connect database to webpage
  - This Week: Continue working on said connection
  - Next Week: More of the above
  - Roadblocks: Learn Node.JS

- Lulu
  - Last week: Creating and populating the database,review Milestone 4
  - This week: Change html files according to middle end and back end
  - Next week: Finish html files and testify
  - Roadblocks: Do background information in order for html fiels to fit Node JS and EJS

- Christian
  - Last week: Started integration. Turns out we need EJS.
  - This week: Going to convert html files to EJS with syntax, start over the integration.
  - Next week: Continue with integration.
  - Roadblocks: Found no resources for integration the Node.JS with html without EJS. Switching to EJS for this reason.
- Kin
  - Last Week: Started to connect database with our webpage.
  - This Week: Contunie working on database and the website
  - Next Week: Continue the work on database.
  - Roadblocks: Learn Node.JS

After the sprint concluded, the team began work on their respective tasks for the week.
